

I want to write on behalf of my favorite radio station K-LOVE in the Raleigh-Durham, North Carolina area. This is the ONLY station to which I listen each and everyday. In such a cynical world, K-LOVE provide both myself and my children positive and encouraging music and information throughout the day. I don't have to worry about trying to switch stations so my children won't hear things they shouldn't hear. If K-LOVE were displaced by an LPFM, I would no longer have a station in my area that plays the uplifting music and message they provide to me on a daily basis. I would be forced to go back to switching channels to keep my kids safe and I would no longer have the positive influence that has dramatically improved my attitude. Please don't allow an LPFM to replace the music I have come to cherish. K-Love provides one of the greatest community services I know of....and afterall, in times like these, we need all the positive reinforcement we can get in our ever increasing bitter world.Thanks.
